

## Lead Time & Order Fulfillment

Order production and fulfillment times are **in addition to** transportation or delivery timeframes. This means the total time from when you place your order to when you receive it includes:

1. **Production & Fulfillment Time** – the time it takes us to process, produce, and prepare your order for shipment
2. **Shipping/Transit Time** – the time it takes for the package to travel from our facility to your delivery address, based on the shipping method selected

For example, if production takes 5–7 business days and shipping takes 3–5 business days, your total delivery time may be 8–12 business days.

If you have a specific deadline, we recommend factoring in both production and transit times before placing your order.
